

Infusion EDI

Are you supplying large clients with a significant volume of orders every week?

An EDI (Electronic Data Interchange) integration could drastically reduce the time you spend on processing these orders, cut down turn-around times and admin overhead.

- Ⓜ EDI allows your customer/s to upload orders from their system directly into Infusion.
- Ⓜ Once the orders have been processed, the invoices are returned via the same process into your customer's accounting system.
- Ⓜ No data entry errors.
- Ⓜ Faster processing times for orders can lead to better cash flow.
- Ⓜ We already have an EDI process set up for:
 - Foodstuffs
 - Progressive
 - Mitre10
 - Bunnings
 - Placemakers
 - Briscoes
 - J A Russell
 - Others available via arrangement
